PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience in Software Engineering, Application Development, and Full-Stack Web Development using Java, Spring Boot, React.js, Node.js, and MySQL. Strong foundation in Object-Oriented Programming, JVM Architecture, Software Design, Database Management, RESTful APIs, and SDLC principles. Experienced in designing, developing, testing, debugging, and maintaining scalable software applications. Proven ability to collaborate in team-based projects, solve complex technical problems, and deliver reliable software solutions. Seeking an entry-level Software Engineer opportunity to contribute to innovative software development projects.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend Technologies: Spring Boot(Spring Security, JWT Authentication), Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, VS Code, IntelliJ IDEA

Core CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

FinSight – AI Personal Finance Management System

June 2026-July 2026

Tech Stack: Spring Boot, React.js, MySQL, JWT, REST APIs

- Developed a full-stack personal finance management application for tracking income and expenses.
- Implemented secure user authentication and authorization using JWT and Spring Security.
- Built modules for expense tracking, income management, budgeting, and transaction history.
- Integrated AI-powered spending insights to help users analyze financial habits.
- Generated downloadable PDF financial reports using backend services.
- Designed responsive dashboards with React.js and integrated REST APIs.

BrezyDrive Rentals – Car Rental Management Platform

July 2025-Jun 2026

<https://brezy-drive-car-rental-jftz.vercel.app/>

Tech Stack: MongoDB, Express.js, React.js, Node.js

- Built a full-stack car rental platform enabling users to browse and book rental vehicles online.
- Implemented user registration, login, and role-based access control.

- Developed vehicle search and filtering functionality for improved user experience.
 - Created an admin dashboard for managing vehicles, bookings, and users.
 - Integrated image upload and cloud storage services for vehicle management.
-

EDUCATION

- | | |
|---|--------------------------|
| • Bachelor of Engineering (Information Technology) | CGPA: 7.54 / 10.00 |
| NBN Sinhgad School Of Engineering, Pune | Year of Graduation: 2026 |
| • Shri Chakradhar Swami High School & JR.College | Class XII – 73.83% |
-

CERTIFICATIONS

- Oracle Cloud Infrastructure Generative AI Professional Certification ([Link](#))
 - SQL Certification by HackerRank ([Link](#))
 - Java Programming Certification ([Link](#))
-

ACHIEVEMENTS

- Successfully developed and deployed full-stack projects using MERN Stack.
 - Participated in Super-X and completed a team project.
 - Participated in technical workshops, coding events, and project exhibitions.
-
